- With real-time posting, notifications and access to your data, Excede enables your dealership to operate more efficiently than ever
- Designed with wizards, workflows and shortcuts to make repetitive tasks seamless, Excede maximizes your dealership's time-management
- Built on Microsoft stack technology, Excede is scalable, extremely powerful, easy-to-use, and highly reliable, delivering maximum uptime and efficiency
- With 90+ available OEM integrations, you'll stay connected to the information that powers your business
- Excede's Professional Services team is comprised of skilled IT professionals, engineers, and process consultants who take pride in ensuring you are getting the most out of your Dealer Management Solution

Getting Started

To learn more about Procede Software and Excede, contact one of our Specialists at (858) 450-4810. Our sales team will review pricing details and provide a quote and/or contract terms.

Discover the difference.

Excede® is a comprehensive, scalable software solution that provides core business functionality for every department within your dealership. Designed to simplify processes and increase efficiency, Excede provides direct, real-time transaction updates and reporting of your data across departments and branches.

Excede OEM Integrations

Procede® Software offers best-in-class integrations with Original Equipment Manufacturers (OEMs) and other third-party organizations, allowing information to be securely shared between OEMs and your dealership. Our integrations are compliant with all major commercial truck, bus, and trailer manufacturers and distributors including Daimler Trucks North America (DTNA), Mack Trucks, Volvo Trucks of North America, Navistar and PACCAR.

Excede Add-Ons

Excede Data Insight

Data Insight takes real-time business intelligence to the next level. This powerful reporting and analytics tool leverages the data already in Excede to help you produce an extensive set of graphical reports and dashboards. With this advanced business solution, you can make fact-based and insightful decisions that can be used to improve your dealership's performance.
